MEMORANDUM BY THE GERMAN DELEGATION
ON THE EXPORT TO ROUMANIA OF KAHANE-REAGENCE

The German Delegation have the honour to inform the Committee that by way of exception the German licensing authorities have authorized during the recess of the Coordinating Committee the shipment of

250 g kahane-reagence, containing 3,3% uranyl acetate, valued at \$2,60

to Roumania.

This very small quantity was included on a shipment of laboratory chemicals not falling under the Embargo in the total value of \$3000.

The kahane-reagence has the following specification :

uranyl acetate	3,3%
magnesium acetate	10,2%
acetic acid, 96%	2,2%
alcohol	40,8%
aqua desti	43,5%
	100,0%

Only by the content of 3,3% uranyl acetate the reagence is covered by item 1 (b) of the International Atomic Energy List.

The German delegation apologize that in this case it has not been possible to present an exception request to the Committee. They trust, however, that in view of the very small quantity and value, the end-use and the special circumstances (recess of the Coordinating Committee) member countries will concur with the action taken by the German authorities.
